

**ACADEMIC HEMATOPATHOLOGIST / TRANSFUSION MEDICINE DIRECTOR
QUEEN'S UNIVERSITY
KINGSTON, ONTARIO**

The Department of Pathology and Molecular Medicine in the Queen's University Faculty of Health Sciences and its affiliated teaching hospitals is recruiting an academic Hematopathologist with a requirement of training/expertise in Transfusion Medicine. Additional training/expertise in tissue typing (HLA) would be considered an asset.

We are a very collegial department, with a strong culture of scholarship. The expectation of the successful appointee will be to oversee the operation of the Transfusion Medicine Laboratory, as well as the HLA laboratory, if sufficient expertise in this area. We are part of an academic health sciences centre with a full Hematology/Oncology service, an active autologous stem cell transplant program, cardiac surgery, regional trauma centre, Level 3 NICU and renal transplant program. Participation in routine hematopathology service including blood film, bone marrow, hemoglobinopathy, flow cytometry and hemostasis sign out is also expected.

Candidates must be eligible for medical licensure with the college of Physicians and Surgeons of Ontario and must hold postgraduate qualifications in Hematological Pathology. Preference will be given to applicants who hold certification from the Royal College of Physicians & Surgeons of Canada or the American Board of Medical Specialties. Candidates must demonstrate strong potential and/or experience for innovative and scholarly research as well as provide evidence of an ability to work in an interdisciplinary, collaborative environment. Demonstration of a strong potential for teaching contributions in the Department's undergraduate, graduate and postgraduate training programs will also be expected. Appointment will be at an academic rank commensurate with experience.

Evaluation of applications will begin immediately and will continue until the position is filled. Applicants should submit a letter of interest and CV to: Dr. David Good, Hematopathology Service Chief, Department of Pathology and Molecular Medicine, Queen's University, Kingston, Ontario K7L 3N6 (Tel): (613) 533-2850; (Fax): (613) 533-2907; E-mail: goodd7@kgh.kari.net (electronic submission preferred). One of Canada's leading universities, Queen's has a long-standing reputation for academic excellence, research and a diverse and vibrant learning environment. With its strong tradition of public service, the University has helped to shape Canadian values and policies, educating notable political and cultural figures. Queen's University is located on the shores of Lake Ontario, in the heart of historic Kingston, midpoint between Montreal, Toronto, and the nation's capital.

The University invites applications from all qualified individuals. Queen's is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, Aboriginal people, persons with disabilities, and LGBTQ persons. The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant's accessibility needs. If you require accommodation during the interview process, please contact: Barb Latimer at <bal@queensu.ca>. All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.

To comply with Federal laws, the University is obliged to gather statistical information about how many applicants for each job vacancy are Canadian citizens / permanent residents of Canada. Applicants need not identify their country of origin or citizenship, however, all applications must include one of the following statements: "I am a Canadian citizen / permanent resident of Canada"; OR, "I am not a Canadian citizen / permanent resident of Canada". Applications that do not include this information will be deemed incomplete.
