

HEMATOLOGIST
Jack Ady Cancer Centre (JACC) in Lethbridge, Alberta
CancerControl Alberta, Alberta Health Services

The Department of Oncology, University of Calgary, Cancer Control Alberta, Alberta Health Services, Community Oncology in conjunction with Cumming School of Medicine, invite applications for a full-time clinician/clinician scientist within the discipline of Hematology and Hematological Malignancies at the Assistant Professor level. The successful applicant will become a member of a multidisciplinary cancer program located at the Jack Ady Cancer Centre (JACC) site in Lethbridge and Margery E. Yuill Cancer Centre site in Medicine Hat, and will join a team of Medical and Radiation Oncologists, Nurse Practitioners and medical support staff working in the South Zone.

The JACC in Lethbridge and MYCC in Medicine Hat are two of four Regional Cancer Centres within CancerControl Alberta's Community Oncology portfolio. Serving Southern Alberta and Southeastern British Columbia and Southwestern Saskatchewan, the centres deliver a wide range of state of the art treatment and care to cancer patients including outpatient chemotherapy, radiation therapy, and access to clinical trials, education and psychosocial support. Cancer care practice at the JACC and MYCC is centered around 7 major tumour groups with rarer tumours managed in conjunction with consultation and expertise from the tertiary centers in Calgary and Edmonton.

The JACC and MYCC operate within a provincial framework for cancer care supported by provincial clinical guidelines and standards, focused on patient centered care. Hematologists are expected to participate in local and provincial tumour team based activities including clinical case reviews at tumour board rounds, annual, provincial tumour team meetings, local quality assurance and quality improvement initiatives and educational programs and are supported by a network of hematologists and Medical Oncologists province wide.

Lethbridge is a growing, vibrant city of 92,000 and an energetic cultural and academic community. Located in beautiful southern Alberta; Lethbridge is close to the mountains (about 70 miles from Waterton National Park and the Rockies) and an easy drive to Calgary. The surrounding area has excellent recreational facilities for both indoor and outdoor activities, including skiing and mountain biking and lakes within twenty (20) minutes for boating, wind surfing and sailing.

Medicine Hat is a growing community of 63,018 people in southeast Alberta. Located 169 km east of Lethbridge and 295 km southeast of Calgary, Medicine Hat and the adjacent Town of Redcliff are surrounded by Cypress County. Often described as an oasis in the midst of the prairies, the historic city of Medicine Hat makes a good base for day trips and is an Alberta destination worth exploring.

The South Health Zone includes two hospitals situated in Lethbridge and Medicine Hat, and serves residents of Southern Alberta, and portions of British Columbia and Saskatchewan. The Department of Oncology is part of the Cumming School of Medicine at the University of Calgary and is dedicated to supporting the growth of clinical service delivery and comprehensive cancer care including research and education.

Qualifications include a MD, FRCPC or equivalent with training in Hematology. Additional training in Malignant Hematology or a Malignant Hematology subspecialty would be an asset. The successful applicants will have or be eligible for certification in Hematology and Internal Medicine with the Royal College of Physicians of Canada and be eligible for licensure with the College of Physicians and Surgeons of Alberta.

Please submit a curriculum vita, a statement of career goals and the names of three referees by January 31, 2018 to:

Dr. Peter Duggan, MD, FRCPC
1331 29 Street NW
